

2010 Tuition Sessions

Below are outlined the finalised dates and times for all remaining tuition sessions running in 2010. All students registered for an IFC/CIP/PMC/DIP PMI examination may attend. There is no extra fee to attend these sessions. All tuition sessions will run from 10am to 5pm with a 1 hour break for lunch unless otherwise stated. These sessions will be presented by experienced tutors and industry practitioners who will give an overview of each course, which will help students to consolidate the knowledge they have already gained through their own studies. Our statistics show that students attending tuition courses improve their chance of passing by up to 20% or more so we would encourage all students to avail of this opportunity.

The below tuition sessions are being run based on student demand. If there is insufficient demand for any tuition centre, the session will be cancelled and students will be offered the nearest alternative centre. Please note that all dates times and locations are provisional and subject to change. Please check the website regularly for updates.
