

TRANSITIONAL ARRANGEMENTS AND EXEMPTIONS

The Institute's qualifications are under constant review to ensure that students continue to study the most recent and relevant material available. As a result, qualifications are subject to change.

The information below outlines how modules students have passed or qualifications completed under a previous structure translate into the Institute's current qualifications. Students should note that this information is subject to change on an annual basis.

It is also important to note that the Chartered Insurance Institute will only award credits to students who complete an Insurance Institute of Ireland qualification by examination. No credits are awarded for qualifications completed by part exemption.

Outdated Modules & Qualification	Current Exemption Entitlement
III Qualification / Modules	
C11 (COP)	No entitlement
